GREEN LAND

Green Spain's cool and misty climate necessitates a focus upon earlier-ripening grapes. Their vineyards extend all the way to Basque Country, sheltering famous wine regions such as Rioja.

White wines made from Albariño and Godello grapes can vary from crisp and tangy to round and peachy profile. Red grapes do well too; the Mencia grape is arguably northwest Spain's best red. Its lip-smacking raspberry tones and floral aromas are fun and bracing.

MEDITERRANEAN COAST

This massive area includes much of present day Cataluña and Levante. Those vineyard areas share exposure to warm winds of the Mediterranean sea. Many of the vineyards can be moderate in climate and coastal, as in Penedés, home of the well-known Spanish sparkling wines, or remote and mountainous, as in Priorat.

Farther southwest down the coast, the higher average temperatures and the lack of rain, the opportunity to make light wines is baked away. Instead the Levante area of Valencia and Murcia, have been producing delightful wines the last two decades.

MESETA

Almost two-thirds of all Spain's vineyards are on these arid plains. Until just a decade or two ago, it was an internationally accepted dictum that little of quality was made here. Nowadays some of Spain's top Vinos de Pago are found in this area.

Most of the vineyards might be hot and dry, but they often lie at high altitudes, and nighttime temperatures can be cool as a result. This is the case of Sierra de Gredos wines, focusing upon local varieties like Garnacha, is fueling a revolutionary turnabout in the land of Madrid.

ISLANDS

With the Canaries off in the Atlantic and the Balearics lying in the middle of the Mediterranean, both groups of islands enjoy temperatures that are relatively moderate.

The Balearic islands of Mallorca and Minorca offer an increasing number of small production wines from indigenous and international grape varieties.

The Canaries— Phylloxera, a parasite, attacked major vineyards all around Europe in the 19th century, The Canary Islands survived, being strategically located with volcanic soil.

EBRO RIVER VALLEY

Ebro river and its tributaries have helped carve out vineyards that have been celebrated for at least two centuries. Among the varieties grown here, Tempranillo is king, certainly, but Garnacha, Mazuelo (Carineña), Graciano and increasing numbers of other indigenous grapes are generating new ideas and styles in the region.

If Rioja has been known as the traditional area of quality wines in the Ebro Valley, Navarra is not far behind. International grapes such as Cabernet, Syrah and Merlot have been more recently planted. Other areas also growing in popularity, especially the Garnacha driven DOs of Aragon, Campo de Borja, Calatayud and Cariñena.

DUERO RIVER VALLEY

The Duero River travels 460 miles from high in the Sistema Ibérico, forming part of the border between Spain and Portugal, produces the greatest wines from the vineyards around the Duero River and Toro for reds and Rueda for whites.

Many of the vineyards are grown in high elevation viticulture, helping to slow down the ripening process. Tempranillo, in the name of Tinto Fino and Tinta de Toro, shines brightly in this region.

On the southern side of the Duero River, Rueda has claimed its own international spotlight with the Verdejo grape, offering a white wine with aromas, texture and flavors.

ANDALUSIA

The ancient lands of southwestern Spain have been planted to vineyards for nearly 3,000 years. With abrupt shifts in elevation, fascinating desert wines have been produced within areas in Montilla-Moriles and Málaga.

And Andalucía's most famous wine area, Jerez (Sherry), receives more rainfall than most other parts of southern Spain. That rain is captured by the special limestone-rich soils of the area, called albariza, producing the most fascinating and unique Spanish wines.
